

DIPLOMA IN GRAPHIC DESIGNING

Conceiving brilliant ideas and representing them with even brilliant graphics is an art very few people possess and that is why talented graphic designers are highly sought after in the advertising industry. Graphics is all about communicating with images, and to be able to make the right “connect” with your audience, it is eminently important that you communicate well- that is precisely what we teach you here.

Taking a diploma course in graphic design with Gemini animation would enable you to get exposed to the latest technologies in the realm of graphic design. We are a leading Graphics designing institute in Delhi and our course lets you master the latest imagine software, print technology and typography. The course focuses on teaching you the basics of designing and gradually helping you master the different key software. Additionally, the mentors at Gemini share their vast experience, tips and tricks to help you polish you skills and grow into a thorough professional by the end of the course.
